18050

MEXICO, AUDRAIN COUNTY, MISSOURI, THURSDAY, DECEMBER 26, 1907.

In extrame of his good health and extrame old ago, Mr. Brock args:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by orgentence. I think I have done so.

"One of the things I have found out to my entire antifaction is the aroper thing for alments that are due directly to the effects of the climate. For Il8 years I have withstood the changeable climate of the United States.

"I have slways been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature.

"As for Dr. Hariman's remedy.

Christian church of this city has relunciantly accepted by the official board and which has caused universal regret among the entire populace of Odeans, regardless of religious belief. Durios his almost four years pastorate here he has greatly atracettened his church and the religious interests of the community in general. He is young, energetic and ambitious, and his field here was limited. He has been tendered the pastorate of the Christian church at Paris, Mo., and has sceepted. He will leave Odeass with his wife and baby about the first of the New Year to enter work, in his newly selected field. No minister, past or present, has so many warm personal friends and admirers as the subject of this brief sketch."

The merchants of Mexico are all busy and are baving an unprecedented brade in spite of the so called period as a matter of fact, the merchants of Mexico all have up-to-date stocks of goods, and after making the price right have let the people know about it. The advertising campaign adopted by the Merchants Association shows clearly by the results that intelligent and persistent advertising, where the goods and prices are right, draws trade immediately. Every merchant in Mexico is benefited by the advertising done by this association, and about jole and assist in paying the expenses.

This city attorney of Columbia, Mo., has drawn a public utility ordinance, which will be presented at the next regular meeting of the city council.

The Columbia Tribune referring to this matter says: "The ordinance idelices the power and duties of such a commission and the tenure of office of the members. It provides for appointment of the commission by the Mayor with the approval of the council." "The commission has power to regulate all public the council." "The commission can power to regulate all public utilities. After its passage another ordinance will be necessary instruction the commission to fix rates for telephones, gas or any other public utilities. The council will probably pass the ordinance unacimously.
